* Some journals have undergone one or more changes during their histories. For more information about historical changes, please visit the journal's [ACS Open Access page](#) or [ACS Open Access page](#).
 † The ACS Au publications, *Late First*, and *Science Essentials* packages provide front-the-access only. For access to prior content, a separate subscription to the ACS Legacy Archives is needed. Exceptions where subscription access includes all back issues applies to *Journal of Chemical Education*.
 ‡ *Chemical Health & Safety*, and *Journal of the American Society for Mass Spectrometry*.
 § This journal is gold open access and free to access but should be added to the library discovery systems.
 ¶ This is the online edition of C&EN news magazine that is made available to organizational subscribers. It is included in most, but not all, ACS All Publications and ACS Core Plus Packages.
 †† Starting in 1997, the Journal of Physical Chemistry split into two sections, A and B. In 2007 a third, C, was introduced. Editorially, these are treated as three separate journals. Transactionally, all three sections (A, B, and C) are treated as a single journal subscription.
 ††† This journal ceased publishing new articles in 2021. Previously published content will continue to be available.
 †††† Fee waivers may be available for publishing authors. Visit <https://acsopenaccess.org/researchers/oa-pricing/#discounts> and select "Other fully open access journals" to view possible waivers.
